

## RING SIZER

**ATTENTION: To avoid errors, please print @ 100% Scale**

### OPTION 1

- Step 1** Find a flat ring that fits the desired finger.
- Step 2** Place the chosen ring over the circles below. You are matching the **inside** of the ring to the nearest sized circle and **not** the outside of the ring.
- Step 3** Double check the size and if the size is in between two sizes (ie: between size 5 and 5.5) order the bigger size.
